Subject: EPA ORD Contact for PFAS treatment consideration

Lewis,

Per our conversation today and Wednesday, below is a contact at EPA ORD that can be shared with Summerville for expertise on carbon treatment considerations for PFAS. Dr. Speth has supported other cities in identifying preferred treatment and sharing information on the latest research. Please feel free to share this information with Summerville and let them know they can reach out to Dr. Speth directly. Thank you.

-Brian
